

**Keka Contractors
15 Curlew Court
Rehoboth Beach, DE 19971**

Equipment Usage Policy

As subcontractors for Keka Contractors we provide you with the forklifts needed to do your job. In the past we have always paid to repair the forklifts as needed but it has become a costly expense to our company to have to repair these forklifts every time one is broken. From this date forward we will now charge the subcontractors responsible for the forklift for the repair bill. When the repair is for normal usage, the company will continue to pay for those repairs. When the repair is NOT for normal usage the subcontractor that is responsible for that forklift will be charged for the repair bill. If you do not pay for the repair bill then the forklift will be removed from the jobsite and the subcontractor will have to provide their own forklifts and crane rentals.
